

1 April: Deadline for 3 and 9 week programmes

Dear Partners,

Students have until 1 April to apply to our programmes that start in May and June 2024! Check out the YouTube short videos below for a snapshot of the student experience.

All of our summer school costs include tuition, accommodation, breakfast, organized trips, daily culture and social activities, 24/7 support. The costs below have the partner university discount applied.

I hope to see some of your students on our programmes, if not our 3 and 9 week programmes, than in July with our **2 week courses whose deadline is 1 May.**

Best,

Erin

Summer school manager

Three week courses: 16 June - 7 July 2024

Urban Sustainability: Engage in the future

Equip yourself with knowledge and techniques that will navigate through the world of multi-level governance, participatory urban planning, vulnerability and resilience in the times of climate and other crises. Engage the public in tomorrow's cities. Engage in the future. This programme offers students experience with a critical interdisciplinary approach to the current city, which includes a combination of understanding theories, learning and designing innovative methods.

€2,200 - Partner University discount applied

International Security: Practical Insights

Get on the path of understanding and experiencing the complexity of international security and threats that we are facing nowadays. Master topics like security analysis, information warfare, energy safety or cyber security surrounded by a spectacular environment in the heart of Europe. This program is designed to provide students with the skills to apply key analytical approaches in international security as well as grasp their implications for the European and global security environment.

Promotion Materials - ready for download

To make your promotion easier, we have prepared fliers and social media (Facebook and Instagram) posts for you to download and use with the partner university discount already applied. These can be found [here](#). Please tag our [Facebook](#) and [Instagram](#) so students can write us with questions!.

You will be able to find individual fliers in both color and black and white for each of the courses. If you would like additional materials, please write us at summer@munio.cz.

A look back on past summers

[5 reasons to attend a winter or summer school with Masaryk University](#)

1. **A different perspective** – Our programmes enable students to attend classes that they may not be able to take at their home institution, or at least not from the same perspective.
2. **Enhance intercultural communication skills** – By attending a summer/winter school with a foreign university, students are introduced to students and faculty members from all over the world.
3. **Preparing students for their future career** – The programmes organized through Masaryk University strive to prepare students for their future careers at the same time as focusing on the academic. Now more than ever, it is important for students to learn how to virtually collaborate and present ideas.
4. **Get ahead for next year** – Whether a 2 week or 9 week programme, all of our courses offer ECTS allowing students to make up for courses they may have missed, or to help them get ahead for future semesters.
5. **Cost effective** – Masaryk University's winter and summer schools have always been cost effective in comparison to many other offerings. All of our programs are cost inclusive with tuition, activities, accommodation, trips, and breakfasts included in the cost. Academic rigor is not lost, however Masaryk University believes educational opportunities should be available to all.
