

Application procedure exchange Rotterdam UAS - Fall 2025 Nominations

***IMPORTANT NOTE:** Please be aware that the Incoming Exchange team (responsible for your outgoing students) will be using a separate email address as of last semester: coia-incoming@hr.nl The other email address, coia-exchange@hr.nl, will remain active as well, but only for matters related to agreements, staff mobility, projects and general information.*

Dear Partners,

We are pleased to announce that we are accepting **nominations for the Fall 2025 semester as of today**. Attached you may also find our Exchange brochure and factsheet.

Note: Students who were nominated for Spring 2025 but had to postpone their exchange and want to study at Rotterdam UAS in Fall 2025 instead need to be renominated as well. Please nominate these students as “new” students in Mobility Online.

We kindly ask you to forward this information to your nominated student(s) as well.

Application procedure: important deadlines

Nominations and applications should be submitted via the online tool [Mobility Online](#).*

1. Nomination by partner university – deadline April 15th 2025

If you have nominated students in Mobility Online before, please use the same login details as last time. If you have not nominated in Mobility Online before, please send us an [email](#) so we can send you your personal login details (one account per partner university).

2. Online application by student – application period between April 1st and April 25th 2025

After we have approved the nomination, students will receive a registration link to

access Mobility Online. All students need to complete their entire online application in Mobility Online before April 25th 2025. After this date, the online application form in Mobility Online will no longer be available and it will not be possible for students to apply for an exchange after this date.

**Partners who wish to nominate students for the Willem de Kooning Academy can send an email to wdka.international@hr.nl. They have their own nomination and application procedure.*

Exchange programmes Fall 2025: course offer and admission requirements

Attached to this email you will find an overview of the [exchange programmes](#) that are offered this coming fall semester. We kindly ask you to choose a program in close consultation with your nominated students; based on their study background, the specific admission requirements and keeping in mind the partner agreement our universities have. If you have any questions about our admission requirements or in case you would like to nominate your students for another school/program within our university than agreed, we kindly ask you to send us an [email](#) first before you nominate your student in Mobility Online.

Student Housing

Rotterdam University of Applied Sciences is able to reserve approximately 100 furnished rooms for incoming exchange students at the largest provider of [student housing SSH](#) in the Netherlands. On Wednesday June 4th the registration starts and on Wednesday June 11th the booking process starts for SSH housing Fall 2025. Please be aware that the booking process is on a *first-come, first-served basis*. We therefore recommend students to register before the booking process starts. More information will be given in the housing webinar on May 21st. Unfortunately, there is a growing shortage of (student) accommodation in Rotterdam and the Netherlands in general. Therefore, students who wish or must arrange housing by themselves on the private market are strongly advised to start searching as soon as they have received their official letter of acceptance from our university (mid/end of May). Students must be vigilant of fraudulent activities while searching on the private market. Please communicate this to your students, so they are fully aware of the housing challenges that they may face in the Netherlands.

Visa & Residence Permit

Students from all countries except EU/EEA countries and Switzerland who wish to attend an exchange programme at Rotterdam UAS for more than 3 months are obliged to obtain a residence permit. Attached to this email you will find a detailed description of our visa application procedure; including the nationalities who are obliged to obtain a visa. Please be aware that students are required to provide us with proof of sufficient funds (€1.095,00 for every month that they are studying in the Netherlands) to cover their living expenses. Our colleagues from CoIA – Student Support will start contacting the accepted students mid/end of May. We kindly ask you and your students to wait for this email. At this point, students don't have to start with the procedure yet.

Frequently asked questions (FAQ)

If you have any questions or doubts, please consult our [FAQ page](#) where we listed the most frequently asked questions.

Kind regards,
