

The Royal Marsden Manual of Clinical Nursing Procedures

Edited by **Sara Lister, Justine Hofland and Hayley Grafton**

Online Edition • Tenth Edition

Supporting nurses for more than 30 years

Benefits to lecturers and students

Developed in consultation with our users, the 10th Edition of the market-leading online resource features more than 250 procedures, presented in an accessible format with enhanced functionality, and the following key features:

Now includes cancer content - with full online access to the brand-new Royal Marsden Cancer Manual

- Improve students' understanding of clinical skills by annotating individual guidelines with additional information they may need to know
- Clarify university policy and practice on clinical placements by annotating procedure guidelines
- Respond quickly and effectively to change in clinical practice: add additional guidelines or update existing guidelines at any point
- Enable students to practise accountably: authenticate any changes in practice, and retain a clear audit trail of procedures approved over time

The Royal Marsden Manual of Clinical Nursing Procedures

Online Edition • Tenth Edition

"The Royal Marsden Manual Online supports us in preparing the next generation of nurses who must be able to demonstrate proficiency in a range of activities."

— **Professor Ian Peate OBE FRCN**

Head of School, School of Health Studies (SHS), Gibraltar Health Authority

Benefits to lecturers and students

Search

- Find information effortlessly with the search engine
- Auto-complete gives you search suggestions as you type, and synonym and spellchecker functions allow you to find the information you need – faster!

Flexible access

- Access content wherever suits you best – at university, hospital, home or on the move
- Responsively designed for smartphones and tablets
- Easy log in and access
- Simple and intuitive access for subscribers and administrators
- Easy access with IP authentication

Additional benefits

- Case studies provide learning around a particular patient case
- Able to print out individual procedures to refer to away from the computer, for personal use
- Brand-new videos showing step-by-step procedures
- Fully customisable to meet local protocols: annotate and upload your own policies and procedures in any language
- Updated regularly
