# Best in Books

Our lives – and livelihoods – depend on the plants, animals, and microbes of this planet. The current extent and pace of environmental change, however, threatens our very way of being. At this point, our only hope is decisive action – a movement that must be informed by research in disciplines dealing directly with life. Biomedicine and Life Sciences provide us with just that. With applications in areas such as medicine, agriculture, and biotechnology, these fields are essential to maintaining and improving the quality of life on Earth.

*The Biomedical and Life Sciences eBook Collection* brings together up-to-date resources from trusted authors working around the world in all aspects of life: from patterns of infectious transmission to processes responsible for the loss of biodiversity.

## Top cited 2017 eBooks

## eBooks Data

For the first time ever we're able to assess the impact of books via the unique platform of Bookmetrix. Here you can find a comprehensive overview of the reach, usage and readership of a book, chapter or a collection by providing various book-level and chapter-level metrics all in one place.

Collection Citation Performance\*

2 year 2017 score: 7.30

5 year 2017 score: 8.07

\* *The Collection Citation Performance for 2016 is calculated as the number of citations in 2016 of books published in 2014 and 2015 (or 2011-2015 for the 5-year indicator), divided by the total number of books published in this eBook collection in the same time period – similar to the well-established journal citation performance metrics.*

**Large readership – more than 3.5 million downloads in 2017**

# Complete Coverage

All our book types are included in the collection from textbooks and monographs to handbooks and reference works.

All Biomedical and Life Sciences books are available on [link.springer.com](https://link.springer.com) where

- Usage is unlimited with no Digital Rights Management
- Users can access content in PDF, HTML or ePub format on any device at any time.
- Users from many countries can order a personal print copy via MyCopy

## Top distribution of book types within the collection

Book Type	Distribution
Contributed volume	58%
Handbook	16%
Monograph	16%
Encyclop(a)edia	8%

### Notable Textbooks

### Renowned Book Series

### Highly Regarded Reference Works

### Key topics in this collection:

- Microbiology
- Food Microbiology
- Genetics
- Neuroscience
- Pharmacology/Toxicology
- Cell Biology
- Applied Microbiology & Biotechnology
- Infectious Diseases
- Biotechnology
- Veterinary Science
- Immunology
- Systems Biology/Bioinformatics
- Pharmacology/Pharmaceutical Sciences
- Toxicology
- Physiology
- Virology
- Plant science
- Ecology
- Agriculture
- Forestry
- Evolutionary biology
- Animal science

### New & Emerging Research Areas:

- Epigenetics
- Genome Editing
- Food and Health
- Translational Medicine
- Gut Microbiology
- Human Microbiota
- Infectious Diseases
- Virology
- Environmental Microbiology
- Metabolic Engineering
- Prokaryotic Engineering

# Always Connected

## Connecting with Authors and Editors around the World

We are a truly international publisher, serving the research community around the globe. With hubs throughout Europe, the Americas and Asia Pacific we are perfectly positioned to connect with our book authors and editors wherever they are located. Our global base of editorial staff is located in cities such as New York, London, Heidelberg, Tokyo, Beijing, New Delhi, Singapore and São Paulo. They constantly travel to scientific meetings and universities to connect with the research community.

### Global Authorships

## Notable Contributors

- Jose Florez, MD, PhD, Associate Professor of Medicine, *Massachusetts General Hospital, Harvard Medical School, Broad Institute, Boston, MA, USA*
- Ralf Bartenschlager, PhD, *Head of the Department of Infectious Diseases, Molecular Virology, Univ. Hospital Heidelberg, Germany*
- Harald zur Hausen, MD, DSc (Hon), MDs (Hon), Professor emeritus, *DKFZ (German Cancer Research Center); Nobel Prize Physiology/Medicine 2008*
- Stanley Benjamin Prusiner, MD, *Director, Institute for Neurodegenerative Diseases, UCSF, CA, USA; Nobel Prize Physiology/Medicine 1997*
- Peter J. Hotez, MD, PhD, Dean, *National School of Tropical Medicine, Baylor College of Medicine, and Endowed Chair in Tropical Pediatrics, Texas Children's Hospital, Houston, TX, USA*

### 2018 eBook highlight picks from our editors

## Springer Nature eBooks

In 2015, the Springer and Palgrave Macmillan publishing brands came together under the newly formed company, Springer Nature. This brought together editorial teams with their subject matter expertise, coupled with longstanding publishing histories with the world's foremost authors and societies to allow Springer Nature to deliver the most complete STM and HSS book offerings available worldwide.
